

## **Top Ten Report - February 2022**

Reviewed & submitted the January 30 GRA Pentathlon meet to the National database. There were no USMS nor FINA records to report.

Met Robin Smith and Alina de Armas to retroactively measure the GWSC 25 Yard wall-to-wall course. There were three (3) USMS records set at the December 2021 USA Swimming CA-NV Sectional meet which required a pool measurement. After submitting the pool certification report to Mary Beth Windrath, I then was able to submit the three records retroactively. These were the 30-34 Men's 100 Breast and the 30-34 Women's 100 and 200 Breast.

All sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request me to add the meet/their times.

Preliminary 2021 SCM T10 are now under review; final rankings should be out next month.

Reminder: The 2021-2022 SCY Top Ten season started June 1, 2021 and will include swims from both the 2021 Short Course National Championship and 2022 USMS Spring National Championship. The 2021-22 LCM Top Ten season started Oct. 11, 2021 and will include the 2022 USMS Summer National Championship.
