

Top Ten Report - March 2024

Final 2023 USMS SCM rankings have just been finalized and have become available on the USMS website. I will be starting on the SPMS SCM rankings and records for individuals and relays next week.

Submitted SCY results from the Palm Springs SCY Meet in February, and the MVN SCY Meet in March. There were no records.

In the process of getting three new USMS records approved by National. These records were set at the Spring LCM CA-NV Sectional meet held in Carlsbad, CA. They are for the 45-49 LCM 100 Breast, 200 Breast and 800 Free; all were set by Gabrielle Rose, UCLA. Since this is a USA Swimming meet it is recognized by USMS, but not by AQUA (FINA), so these times will not count for World Records. Gabrielle will be swimming at Olympic Trials and is possibly the oldest swimmer to ever qualify for Trials. Congratulations.

The following meets have been double-sanctioned by USMS and USA Swimming for 2024 so far: MVN Swim Meet of Champions and NOVA Grand Challenge.

Please remember that if you have a swimmer with dual registration that you can only set USMS records at a USA Swimming meet unless you get a dual sanction or an observed status from USMS on the same meet. You cannot set an AQUA (formerly FINA) World record at a USA Swimming meet which is only sanctioned by USA Swimming. If the pool has not been included (measured or re-measured) in the USMS database, the times from a USA Swimming meet will go in the database but cannot be considered for rankings or T10.

Hosts, please remember that if you do not have a CTS printer hooked up, you will not get records submitted for a USMS/World Record. They do not accept printouts from inside Hy-tek as any decent admin or computer tech can change these times. Hook up your CTS printer!

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.

Paper meet information must be bundled and sent via trackable mail to the Top 10 recorder within 10 days.
